

SUGGESTED TOPICS FOR HANDS-ON SCIENCE FAIR

How to make a thermometer.

A model weather bureau.

Illustration of water cycle.

How mirrors work.

How water is purified.

Collecting/making sugar maple sap.

Making butter.

How to make rain.

Life cycles of insects.

Food for birds.

Sound vibrating.

Contents of toothpaste.

Varieties of vegetables.

How paper is made.

Making a weather vane.

Testing varieties of soap.

Clay modeling.

Different sources of light.

Germination of seeds.

An aquarium.

An ant farm.

Ecology of a stream.

Rocks/Geology.

Bird Migrations.

Life cycle of leaves of trees.

How do neon signs work.

Maps/Globes.

Making cheese.

Weather barometer what does it do.

A microscopic projector.

Models of planets.

Varieties of flowers.

Different kinds of fish.

What causes day and night

Astronomy.

How a plant manufactures food.

Construction of bird/houses/feeders/baths.

Root growth.

The Water Cycle.

Care of teeth.

How plants get their water.

Different breeds of animals.
